

Registration Gateway

by SRC Solutions, Inc.

Save time. Cut costs.
Reduce legal risk.
Increase funding opportunities.

All with Registration Gateway!

The Registration Gateway Solution

Registration Gateway transforms a process that once took up to two hours per student—and reduces it to mere minutes. With Registration Gateway, administrators can cut costs, reduce legal risk and make the most of funding opportunities.

An Ever-Growing Problem

K-12 student registration has become an increasingly slow, outdated process. Yet registration is projected to increase 4%—and cost-per-student to increase 8%—annually through 2014.

Old Systems, Hidden Risks

Outdated processes expose schools to more and more legal risks. From government compliance to HIPAA exposure, traditional processes leave schools exposed to costly lawsuits and fines.

What is Registration Gateway™?

Registration Gateway is the only truly paperless enrollment solution on the market. Registration Gateway dramatically simplifies the K-12 student registration process through a user-friendly Web wizard.

Registration Gateway
integrates directly
with all major School
Information Systems!

About SRC Solutions, Inc.

SRC Solutions provides a gateway to improved productivity and profitability for educational, government and private industry customers. We identify cumbersome, repetitive, counter-productive work procedures—and replace them with easy-to-use, intuitive products and streamlined digital processes.

As a XEROX® Platinum Partner and an authorized reseller for Kofax, Surety and Recruit Manager, our solutions for the public and private sector include document management, workflow improvement and integration into numerous ERP systems.

Legal compliance.
Time and cost savings.
Data accuracy.
Increased funding opportunities.
Simplified downstream reporting.
Improved document tracking.

Superintendents, IT Managers and Administrators all over the country are reaping the benefits of the streamlined paperless student registration process powered by Registration Gateway.
